

DEERFIELD, IL, October 1, 2015 – Sterigenics International LLC, the leading global provider of contract sterilization, gamma technologies and medical isotopes, and a portfolio company of Warburg Pincus and GTCR, today announced a \$15 million expansion at their West Memphis, Arkansas facility that will triple gamma sterilization capacity.

Opened in 1999, the West Memphis Sterigenics facility currently offers 2.5 million cubic feet of gamma sterilization capacity. The installation of a new gamma cell will triple capacity to 7.5 million cubic feet and upon completion in early 2017, will result in approximately 20 additional jobs at full capacity.

“As the demand for medical devices grows globally, our customers can be assured that we will add sterilization capacity to meet their needs,” said Michael Mulhern, CEO of Sterigenics International. “The expansion at West Memphis is just one more example of our ongoing commitment to customers.”

“Our West Memphis location is experiencing increasing demand for sterilization services,” said Philip Macnabb, President of Sterigenics International LLC. “Given the importance of Memphis as a major U.S. logistics hub, it is a critical piece of our global network that we will continue to build upon and expand in order to best serve customers.”

About Sterigenics International LLC

Sterigenics International LLC, along with its affiliates, is a global leader in outsourced contract sterilization services, gamma technologies and medical isotopes, and the only vertically integrated sterilization company in the world. Operating out of 47 facilities in 13 countries across the Americas, Europe and Asia, Sterigenics provides contract sterilization and ionization services for the medical device, pharmaceutical, food safety, and high-performance materials industries. Through its SteriPro® Labs service, Sterigenics offers microbiological and analytical testing and consultancy to assist customers in developing and maintaining sterilization solutions in medical devices, tissue/implantable products, and pharmaceuticals and biologics fields. Affiliate Nordion positions Sterigenics as the world's largest provider of Cobalt-60 used in the gamma sterilization process as well as medical isotopes used in the diagnosis and treatment of various diseases and cancers. Sterigenics International LLC and its affiliates serve more than 2,500 customers around the world and is owned by private equity firms Warburg Pincus and GTCR.
